PERSONAL INFORMATION	
NAME Art Sripipat	DATE 08/10/2016
CITY OF RESIDENCE Sierra Madre	YEARS AS RESIDENT Less than 1 year

COMMISSION/COMMITTEE
COMMISSION/BOARD/COMMITTEE FOR WHICH YOU ARE APPLYING Community Services Commission
Why are you interested in serving as a member of this commission / board / committee? I believe that the Community Services Commission serves a unique role in advancing the quality of life of our town's residents. Central to what makes Sierra Madre such a desirable place to live is its abundance of parks, trails, and open spaces. As noted in the Parks and Facilities Master Plan, there are a number of Level I and II priorities that need to be addressed to ensure the safety and usability of our city's parks and facilities. In addition, I'm also a strong supporter of the special events that are organized by the Commission, such as the concerts in the park, Shakespeare in the park, and family movie nights. I believe that these events are an excellent way to utilize our parks and facilities to bring the community together, and if selected to serve on the Commission, I would like to see these events continued, as well as explore other similar types of events (e.g. family scavenger hunts).

What specific attitudes, skills, and expertise do you think you have to enhance the work of the commission / board / committee? If selected, I would bring a strong sense of advocacy for the parks, recreational programs, and special events. I think we are fortunate to have a well thought out Parks and Facilities Master Plan in place, and it will be very important to ensure that its recommendations are carefully and thoroughly implemented. I believe that my background as an attorney helps me delve into the detail-oriented aspects of implementation, with an eye towards ensuring that not only the big picture but also the small details are brought to a successful execution. For example, as a regular trail user, I understand the importance of signs. It is vital that the signs are not only legible and contain a clear message but also that they are placed in intuitive locations that make sense to those who use the trails.
