The City of Sierra Madre provides quality, cost-effective public services that preserve the small town character and enhance the health, safety and welfare of the community. One way we do this is by creating and updating master plans which help set the City's goals for project and budgeting purposes. By completing this questionnaire, you will help us identify the community's needs for the parks and recreational facilities. It is estimated that it will take about 20 minutes to complete the 68 questions in this questionnaire. Thank you for your time and your feedback!
